New York Curb Market.
REPUBLIC SPECIAL.

New York, July 8. Midsummer duliness prevalled in the curb market to-day. Penturce were lacking. International Mercantile marine shares were offered at lower figures, but actual transactions were insignificant. There was little done in any of the speculative issues in which manipulation has been actively indused in in the past. As the day wore on the market inpsed into stagnation, and the close was quite and weak, with small fractional declines ruling. Total sales were 25,000 shares.

Northern Securities weak and a little more active than yesterday. They sold from 344; down to 345 for 450. One hundred shares of Green Copper sold at 224, and 160 shares of American Can preferred at 474. Indianapolis Gas 5s sold at 105 for \$2,000; \$10,000 New Orleans Railway bonds sold at 874; \$8,000 silver debenture 5s sold at 3834, 500 shares of Seaboard Steel and Iron at 174,611-25, and 200 shares of Houston Oil at 445.

much about a sensational decrease up the United States Steel Corporation's earnings that the quarteriv statement published after close of business vesterday was r garded as favorable, and on the revulsion of selling thus created both common and nucleared stocks railled in the early dealings. Later what looked like fresh liquidation made an appearance and the room traders joined in the selling with reluctant declines. The room heard gossip about a block of 30.00 shares, which was in progress of liquidation and expected more stock to come out. The selling by 1: L. Smythe & Co. yesterday was considered good.

Steel Makes Fair Recovery After Heavy Selling - Missouri Pacific Shows Gain.

New York, July 8.-Professional traders made another unavailing attempt to awaken some degree of activity in the stock marof the sales were at slight recessions from | ket to-day. During the early market the rate of activity was equal to the expanded dealings of the latter part of yesterday, but the subsequent relapse was into such a com-plete stagnation that the total dealings for the day dropped back to about the low-Lincoln Trust opened well at \$150, but | record level for the year. In the light of GOLD FOR EXPORT.

The further engagement of \$1,500,000 gold The further engagement of \$1.00,000 gold for export and the early sharp rally in the cotton market seemed to have no effect in checking the rise in stocks. It was after eatten had reacted that the unresponsiveness of the stock market to the stimulation of light professional buying was perceived. Prices thereapon sagged off and the whole market fell back into its rut of stagnation. Reports have been current for several days that insiders were buying Erie stocks on the certainty that the directors to-day woulf advance the first preferred dividend to 4 per cent and declare a 2 per cent dividend on the second preferred. Credulous traders who have followed this "inside" buying learned to-day on inquiry that no directors meeting is in contemplation for two weeks. The includent is characteristic of the present market, but so far as can be judged from the resulting movement in the stocks, these rumors have done no great harm nor conferred any great benefit on anybody. The rally in the cotton market is regarded as a natural incident of the process of settlement to a normal basis in that market, but until the settlement is completed the expected benefits to the financial and general business structure are not likely to become evident.

CROPS ARD VITAL. for export and the early sharp rally in the me evident.

CROPS ARE VITAL. The favorable crop weather was offset by the expressive firmness in the wheat market, and the profit-taking reaction in corn did not entirely relieve the fear that the Government crop report due on Friday will make an unpromising showing for that crop. Further weakness in international Mervantile Marine on the curb helped to disturb sentiment. There was also a further slump in Standard and Twine issues, but a pretty effectual recovery followed. New York exchange at Chicago declined 20 points to 20c discount. The disposition at that center to recall funds and the cemplete cessation of any stock market inquiry from that source give rise to some surmise in Wall street circles. It is significant of the prevailing dullness of business that stock brokerage liouses are largely reducing their clerical forces. he expressive firmness in the wheat marforces.

Active railroad bonds were pretty steady, but high-grade inactive issues are settling to a lower price basis. The New York Central seneral mortgage 3½s, which sold last week as low as par for the first time in their history, sold to-day at 3%. Total sales par value \$1.15.00. United States bonds were all unchanged on the last call.

BUTCHER CATTLE Butcher cattle supplies were light and unity of ordinary kinds, with but few good eows or helfers amongst them. The demand was not keen, although there were eacush buyers out that bought feely and the movement was active and quick, with sales generally showing an advance of around 19c. The best grades of cows and helfers are meeting with the best request and these have advanced 162225 shee last Friday, while the medium and grassy helfers and the bulk of the cows are not considered more than 5c stronger. Strictly earners are stronger, with cutters a shade higher. Bulls have shown but little change Calves soil a shade higher than Tuesday.
